

New Application Release Bulletin

GlobeKash Money Transfer Application

i5100

Ingenico's business development team has recently released our newest addition to the suite of Value-Added Applications. We are proud to announce the development of a prepaid PIN purchasing application on Ingenico i5100 terminals, interfacing with the GlobeKash processing host. This application is now officially Class "A" certified, making GlobeKash the newest partner in our Value-Added Program. The application does not currently support data entry via card swipe. All data such as voucher numbers and serial numbers are entered via terminal keypad.

The application supports Ethernet and modem-dial. Configuration parameters specify the communication type and dial backup capability.

Terminal Types:

- i5100

Application Specifics:

- Application Version: 0.96
- Communications Supported: Dial & IP
