

New Application Release Bulletin

whizPay™ Credit & Gift Application

i5100

Ingenico's business development team has recently released our newest addition to the suite of Value-Added Applications. We are proud to announce the development of whizPay™, a credit and gift application on the i5100 terminal that interfaces directly with the TalentBeat gateway. This application is now officially Class "A" certified, making TalentBeat the newest partner in our Value-Added Program.

The application supports Ethernet and modem-dial. Configuration parameters specify the communication type and dial backup capability.

whizPay™ is a modular multipurpose, PCI-certified platform enabling merchants to provide a personalized, rich experience for their customers with integrated CRM and Rewards solutions on both gift and credit cards. The whizPay™ platform is integrated into a majority of POS devices, shopping carts and processors worldwide, making the deployment and integration extremely efficient. The platform also provides multicurrency, mobile payments, IVR Self Service Solutions, Virtual terminal and WebServices for third party integration, as part of the platform providing several avenues to accept payments.

whizPay™ offers processing connectivity with most of industry leaders like Elavon, Global Payments, Chase Paymentech, SVS and continues to add new ones on an ongoing basis.

Terminal Types:

- iSeries 5100

Application Specifics:

- Application Version: 2.3
