

## Model **PM5271S**

The PM5271S provides 4-1/2" pole height, 180° degrees of rotation and secures the i3070 with a rear clip and tamper-proof screws. Double-sided tape on the base eliminates the need to drill counter-mounting holes. Cable management allows the cable to enter a rear upper hole and exit through the bottom or through a mouse hole. A metal shield, which mounts on the left side only, is available.

Four screws can be used to mount the base to provide additional security.

**PM5271S**

Designed for the Ingenico i3070
