

**Model PM5650***ML30 - ROTATING*

The metal Rotation Box Stand and bracket has a height of 4 ½" and is angled at 20°. The rotation box with cover plates allow for protection & more security of the pole assembly screw.

Attached to the rotation box is a fixed angled bracket. The fixed angle bracket offers the ability to change the PIN pad mounting head in the event of a future product change.

A rear "security clip" provides for the requirement of tools to remove the PIN pad.

Cable management allows for the cable to enter the top of the pole and exit through the counter or mousehole.

The base is mounted to the counter with screws for extra security and strength for tilting.

Model PM5650T

The PM5650T is identical to the stand above but offers double-sided tape on the base to eliminate the need to drill counter-mounting holes.

**PM5650**DOUBLE SIDED TAPE
